***Allowable Subject Matter***

1. Claims 1-35 are allowed.
2. The following is an examiner's statement of reasons for allowance: with respect to independent claims 1, 16 and 28, as applicants properly point out, starting on page 9 of the remarks, Bracamonte does not rely upon evaluating one or more values within the 8x8 block to determine the most efficient scanning scheme of serializing, and serializing each of the four 8x8 blocks of data according to the determined scheme. Applicants further point out, regarding independent claims 8, 23, and 35 that Thyagarajan, et al. do not disclose or suggest compressing a digital image by, among other things, scaling the frequency domain representations into a stream of data, wherein the act of scaling is based on a quality metric correlating with the quality of the image. Hence, and in view of Applicants' arguments set forth above, the 35 U.S.C. 102 rejections thereof to independent claims 1, 8, 16, 23, 28, and 35 are withdrawn, making independent claims 1, 8, 16, 23, 28, and 35 allowable. Also, since claims 2-7, 9-15, 17-22, 24-27, and 29-34 further restrict independent claims 1, 8, 16, 23, and 28 respectively, they are allowable also.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
